Hartford, WI 53027

Subject: Label Amendment – Addition of marketing claims
Product Name: FLYING INSECT KILLER I
EPA Registration Number: 46813-69
Application Date: 04/05/2016
Decision Number: 516256

Dear Ms. Killoren:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Decision No. 516256

with FIFRA section 6. If you have any questions, you may contact Elizabeth Fertich at 703-347-8560 or via email at fertich.elizabeth@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Meredith M. Fry".

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions

- This product can only be used in Metered Dispenser Devices
- Not for use in residential areas.
- Do not use in nurseries or rooms where infants, ill, or aged persons are confined.
- Do not place metering device directly over or within 8 feet of exposed food, dishes, utensils, food processing equipment, and food handling or preparation.
- Do not install within 3 feet of air vents.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.
- Do not use in aircraft cabins.
- DO NOT use in areas where fish or reptiles may be exposed to the spray.
- Carefully follow directions for the dispenser unit when installing the dispenser and replacing cans or conducting maintenance.

- When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

Flying Insect Killer I is designed for use in a wide range of automatic metered dispensers. The dispenser automatically activates the special metered valve every 15 minutes. Within 24 hours following treatment a decrease in the number of flies, gnats, mosquitoes and small flying moths should be noticed and with continued use, annoyance from these pests should also be reduced. Effectiveness of this product is noticeable within one hour after the dispenser is activated. Recommended use is for 24 hours; if less than 24 hours is required, set the dispenser to start one hour before control is desired and to run one hour after control is no longer needed. Factors such as airflow rate, size of space treated, humidity and room temperature affect insect activity and control; therefore, consider one unit per 6,000 cubic feet of unobstructed space, making adjustments depending upon specific conditions at the usage site. As with any method of insect control, best results are achieved when insect prevention practices are followed. Carefully follow the directions for the specific dispenser unit of choice when installing the dispenser, replacing cans and conducting required maintenance.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Keep this product dry in a tightly closed (preferably locked) storage area when not in use. Store in a cool, dry, well-ventilated area inaccessible to children and pets and away from heat, sparks and open flames.

Pesticide Disposal: Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Do not puncture or incinerate! If empty: Place in trash or if available offer for recycling. If partly filled: Call your local solid waste agency for disposal instructions.

{Additional/alternate marketing language:}

[Meets CARB VOC regulations for flying insecticides [{25% Content}] [{25% VOC formulation}]. No greasy [oily] residue. Contains the botanical insecticide Pyrethrins [an extract of the Chrysanthemum flower].

Federal regulations prohibit CFC propellants in aerosols.
Contains no CFCs or other ozone depleting substances.]

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors or spray mist. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

All handlers must wear the following

- Long-Sleeved shirt
- Long pants
- Shoes and socks
- Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber, or Viton (section category E))

User Safety Requirements:

- Following manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:

- User should wash hands before, eating, drinking, chewing gum, using tobacco, or using the toilet.
- User should remove clothing/PPE immediately if pesticide gets inside and after handling this product. As soon as possible, wash thoroughly and change into clean clothing. Wash the outside of gloves before removing. Then wash thoroughly and put on clean clothing.

First Aid

If on Skin or Clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for further treatment advice.
If in Eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for further treatment advice.
If Swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person • Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-888-740-8712 or the National Pesticide Information Center at 1-800-858-7378.

Note to Physician: Contains petroleum distillate. Vomiting may cause aspiration pneumonia.

{Note: The grid format will be used if market space allows; otherwise a paragraph format will be used.}

Physical or Chemical Hazards

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.
